ABOUT RAILTRUCKS

RailTrucks specializes in designing, building and delivering trucks for customers in the rail industry. Having trouble finding the truck you need? Our in-house engineers are available to help find a solution that meets your needs.

Headquartered in Kansas City, Kansas, RailTrucks has three factory locations: two in Kansas City and one in Findlay, OH, as well as sales offices in Minneapolis and Orlando.

A SUCCESSFUL TRACK RECORD

RailTrucks comes from a long line of industry specific truck builders. Our parent company, SkyMark Refuelers, is the world's largest manufacturer of Aviation Refuelers with customers in more than 40 countries. SkyMark subsidiaries serve rail, sewer & septic, portable restrooms, oil fields, liquid waste, refined fuels, and aviation ground support customers. And, its state-of-the-art fabrication facility, allows SkyMark to vertically integrate fabricated parts and tanks.

SkyMark is a privately held company that's owner-operated and well capitalized. They produce over 600 trucks per year.
